GEM

Brand Guidelines V3.0

Part A — Master Brand Guidelines

HOSPITALITY, IN PERFECT PROPORTION

V3.0 · Owner authorized final brand-system baseline (AC20) · formal deferrals recorded · logo from supplied vector kit, owner acceptance PENDING (VAL-02) · Document ID GEM-BG-V3.0 · issued 2026-10-09

A manual for making things that belong to GEM.

This is the strategic, visual and expressive manual for GEM™. The identity direction is approved. These pages make it complete, usable and consistent: what GEM believes, how it looks, how it sounds and how it behaves.

THIS MANUAL ANSWERS

- What does GEM stand for?
- How should GEM look and sound?
- How does it behave for guests and B2B partners?
- What is fixed, and what may flex?
- What is approved, and what is still pending?

WHICH SOURCE WINS

Where sources conflict, the approval register wins.

1 · V3 Final Brand Approval Register

2 · Part A, Brand Guidelines: brand and identity

3 · Part B, Digital Design System: digital implementation

4 · Part C, Production Standards: physical production

5 · Formal technical and legal standards, where they apply

6 · V2 / V2.1 and V1: historical, superseded

7 · Benchmarks and inspiration only

Domain ownership: where A, B and C cover different implementation domains, the owning document governs that domain unless the Approval Register overrides it.

THREE COORDINATED PRODUCTS

A · Brand Guidelines

This manual. Strategy, identity, expression, applications, behaviour.

B · Digital Design System

Tokens, components, responsive and accessibility implementation.

C · Production Standards

Dielines, materials, tolerances, supplier proofs. Issued as V3.0, pending production validation.

STATUS VOCABULARY

Every page says what is final and what is not.

APPROVED	Final under the register. Use as written.
CONDITIONAL	Approved, with a condition still open.
PENDING VALIDATION	Evidence, native QA or testing outstanding. Never shown as final.
REFERENCE	Study or inspiration. Not a GEM standard.

Shape carries the meaning as well as the word: filled, solid, dashed, dotted. Placeholders read [PENDING], [TO BE VERIFIED] or [REQUIRES OWNER]. Concepts read CONCEPT / NOT PRODUCTION ARTWORK or CONCEPT / NOT PRODUCTION PHOTOGRAPHY. Further labels: PENDING PRODUCTION MASTER, PENDING LOCALIZATION APPROVAL, PROJECT-SPECIFIC / REQUIRES SITE VALIDATION. Edition states: WORKING EDITION, RELEASE CANDIDATE (RC), APPROVED. An edition becomes APPROVED only by Brand Owner authorization (AC20).

01

BRAND

The idea, four principles, positioning, audiences and architecture.

Every arrival, precisely composed.

Hospitality is a sequence of moments. GEM gives each one its proportion, its timing, its space and its detail.

FIVE QUALITIES OF AN ARRIVAL

Composed means each part is in measure.

Proportion

Every element in right relation to the next.

Timing

The right moment, never rushed, never late.

Space

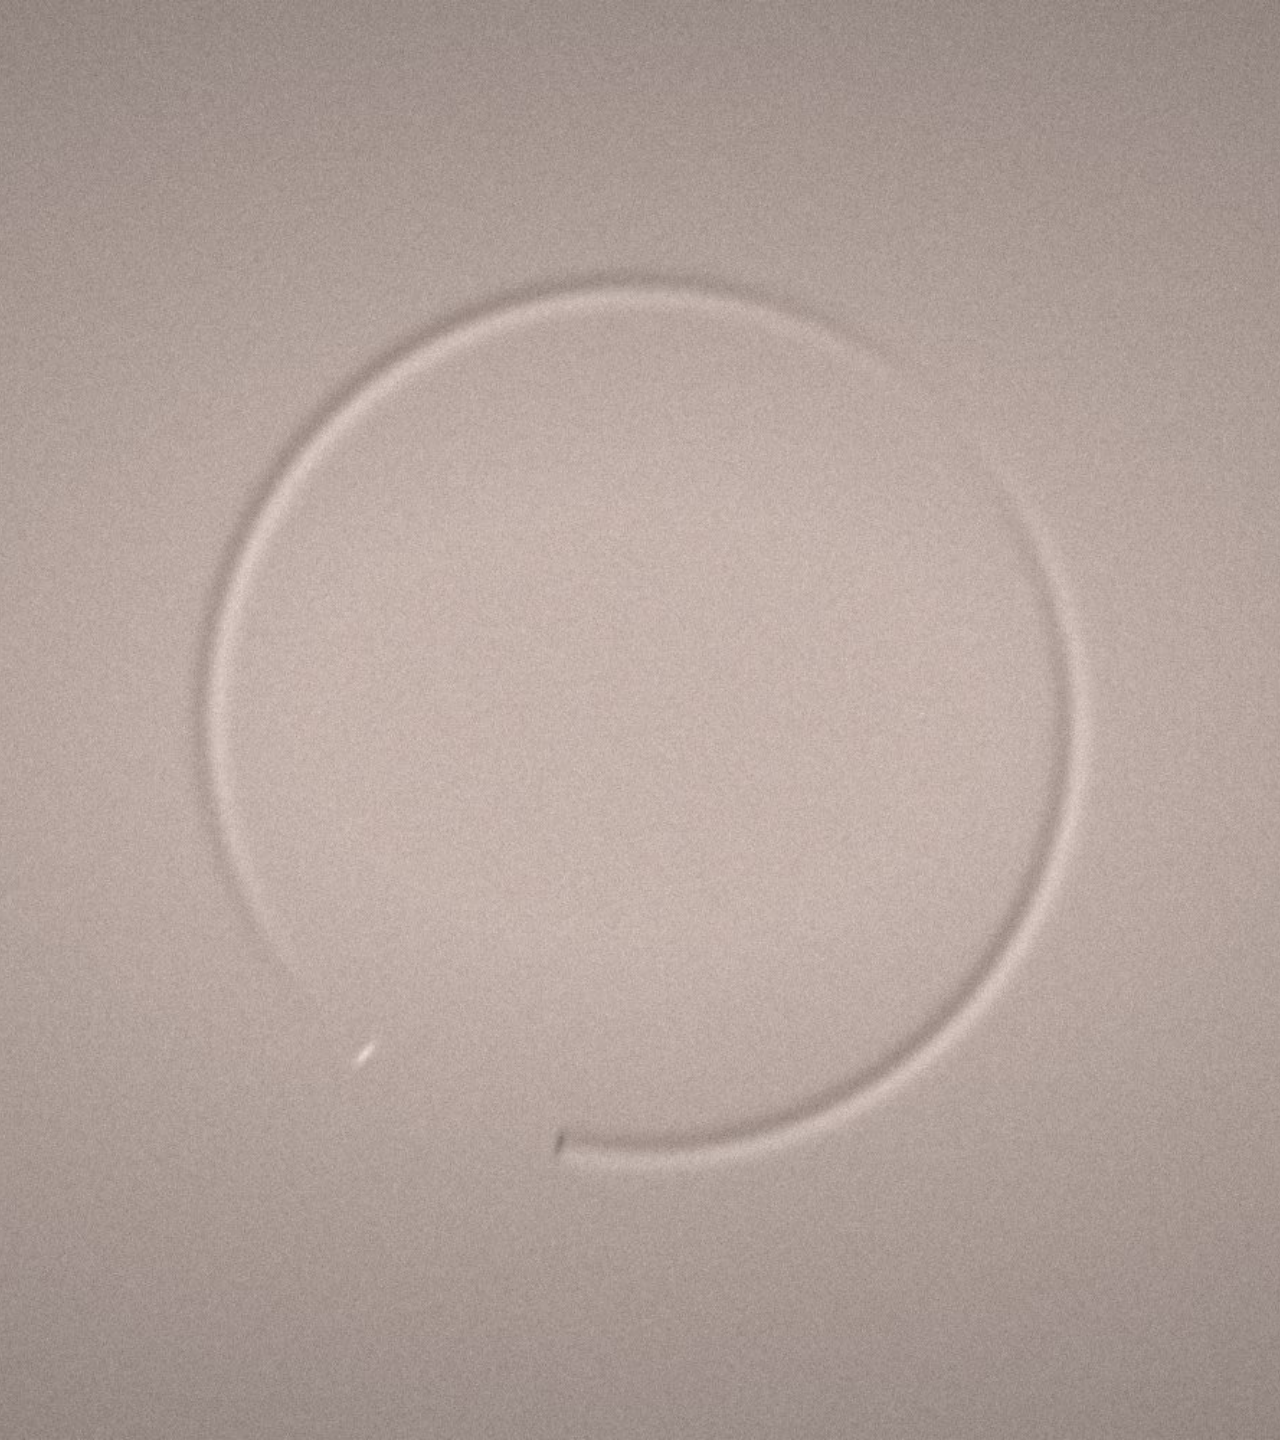

Room to arrive, to look, to breathe.

Detail

Correct, verified, resolved down to the edge.

Restraint

Nothing added that does not serve the guest.

PRINCIPLE 01

PRECISION OVER DECORATION

One fine line, correctly placed, says more than a surface of ornament.

THE RULE

If an element does not carry meaning, function or proportion, remove it.

IN USE

A deboss instead of a pattern. A hairline instead of a box. A verified fact instead of an adjective.

PRINCIPLE 02

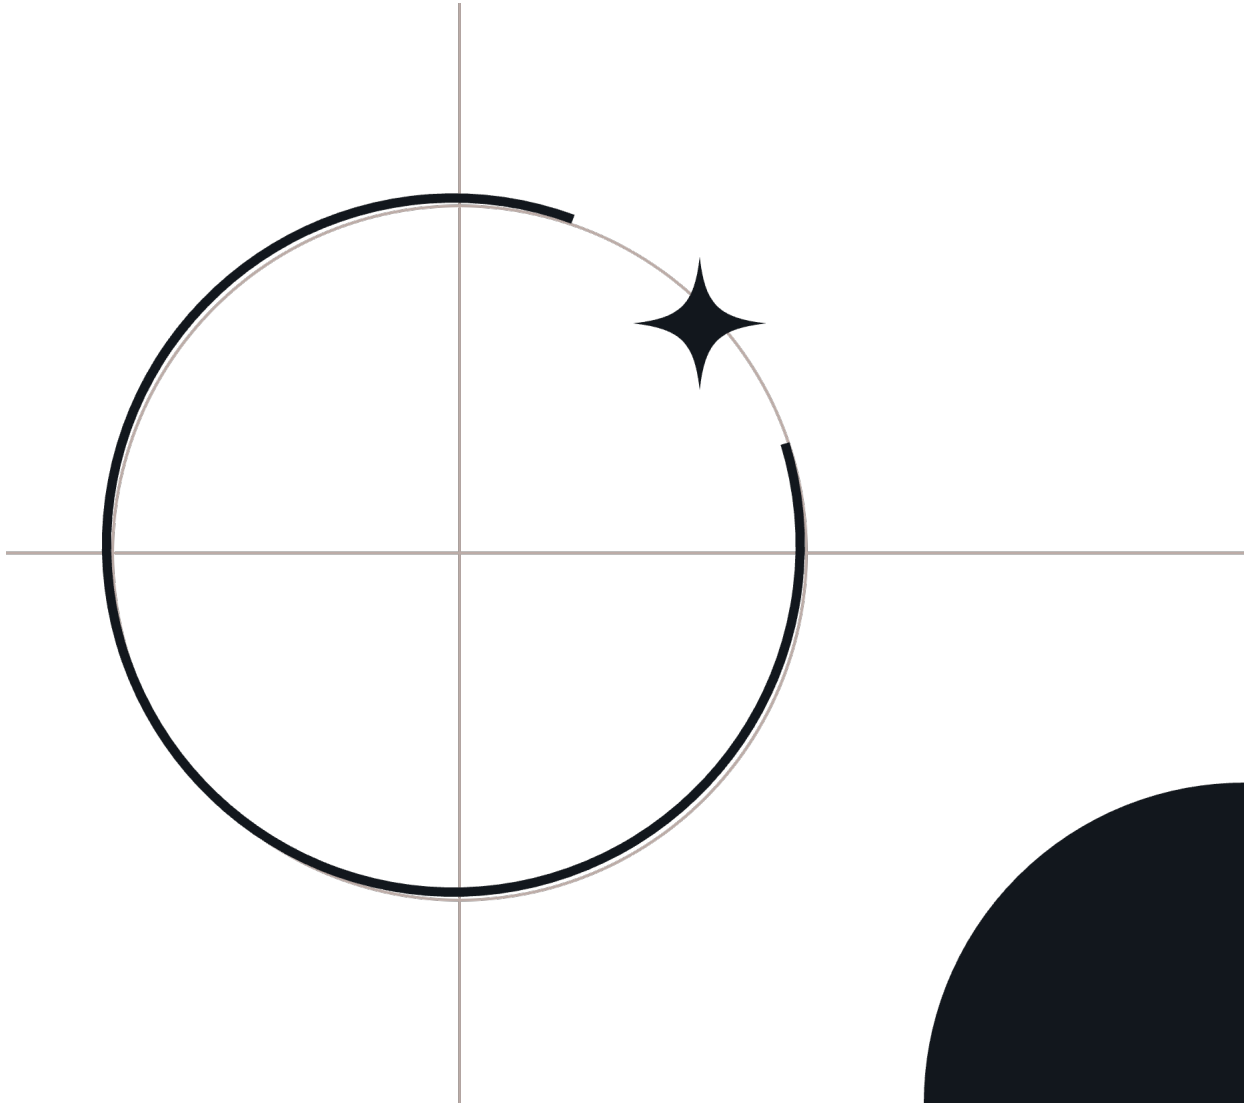

RESTRAINT IS THE LUXURY

Rule: say less, show less, and let what remains be exact. Empty space is a decision.

PRINCIPLE 03

GEOMETRY IS THE LANGUAGE

Ring, arc, quarter and spark are the whole vocabulary. Every supporting shape derives from the mark.

THE RULE

No borrowed shapes. If it is not ring, arc, quarter or spark, it is not a GEM device.

Schematic of the vocabulary. Not the master artwork.

PRINCIPLE 04

SPACE IS PART OF THE IDENTITY

Rule: protect the empty field. Clearspace is not left over; it is designed.

POSITIONING

GEM IS

A hospitality supplier and partner.

One master brand, applied the same way everywhere.

Precise, restrained and specific in what it says.

Bilingual by design for Saudi/GCC hospitality.

AND

GEM IS NOT

A hotel operator.

A decorative luxury brand.

A family of separate sub-brands.

A source of unverified claims.

ROLE IN HOSPITALITY

The calm of things being right.

EMOTIONAL PROMISE

Guests feel looked after without being told.

FUNCTIONAL VALUE

One coherent identity across objects, language and space.

MARKET ROLE

Supplier and partner to those who run and build hospitality.

Commercial scope, capabilities and proof points are CONDITIONAL until commercial validation closes (VAL-01). No capability is claimed in this manual.

AUDIENCES

Five audiences. One personality.

GUEST

Wants to feel welcome and unhurried.

PROCUREMENT

Wants specification and certainty.

OPERATIONS

Wants clarity it can repeat daily.

BRAND & DESIGN

Wants rules it can apply without guessing.

OWNERS

Wants a standard that scales across properties.

ONE PERSONALITY, FIVE REGISTERS

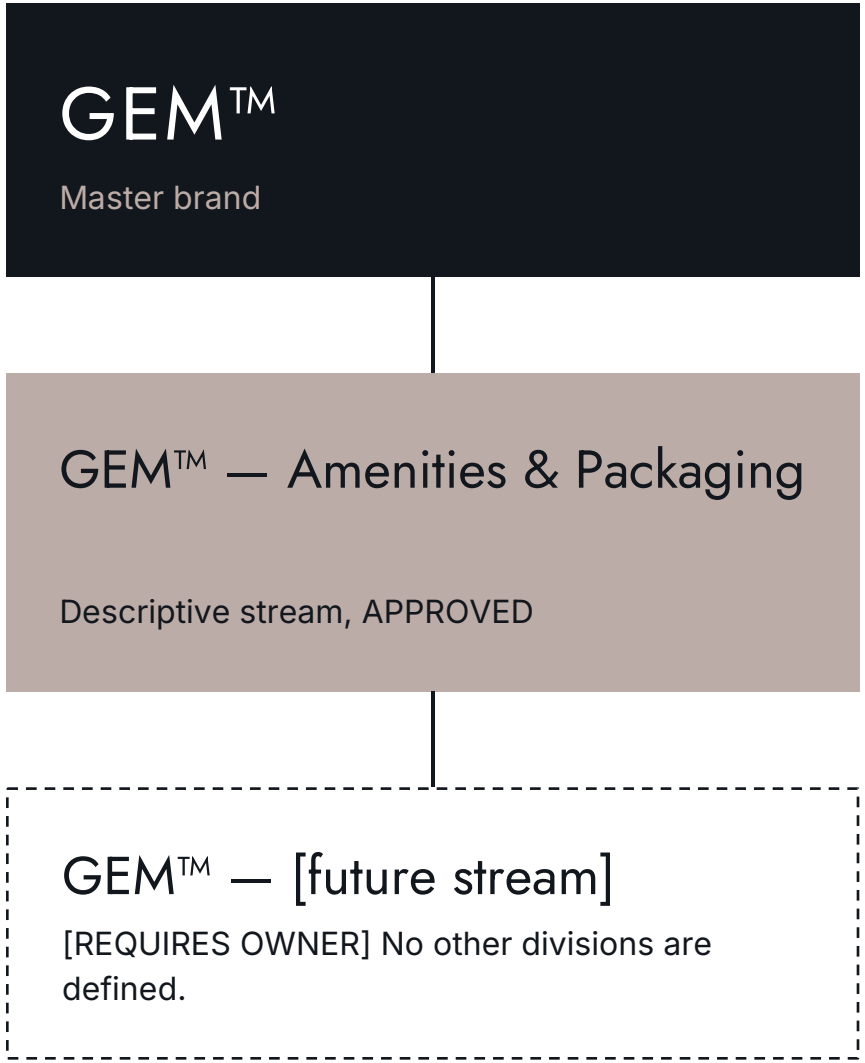

The voice adjusts its detail, never its character.

Audience	How GEM says it
Guest	Your room is ready. Take your time.
Procurement	Name, size and artwork version are stated on every sheet.
Operations	One reference for every item. Nothing to interpret.
Brand and design	Use the approved artwork. Check the status before you send.
Owners and developers	One identity, applied the same way in every property.

Illustrative lines written for this manual, not approved campaign copy.

BRAND ARCHITECTURE

One master brand. Streams are described, not branded.

Amenities & Packaging is the primary approved B2B stream under GEM. It uses the same logo, palette and typography, with a descriptive line set in type.

RULES FOR ANY STREAM

A new stream inherits the identity. It never forks it.

Any future stream follows the same rules, and is added through brand governance.

- Name it descriptively: GEM™ — [Stream].
- Keep the one logo, one symbol, one palette.
- Set the line in Jost or Inter, never as a logo.
- Prove any capability before claiming it.
- Approve through the Brand Owner. [REQUIRES OWNER]

02

VOICE

How GEM sounds, and the two lines that are fixed.

Measured.	Short sentences. No hurry.
Warm, not effusive.	Welcome without exclamation.
Quietly confident.	State rather than sell.
Precise about detail.	Facts, verified. Never an adjective in place of one.

VOCABULARY · USE

arrival
stay
proportion
composed · measured
quiet · exact
welcome · crafted

VOCABULARY · AVOID

~~luxurious~~
~~world-class~~
~~indulge · pamper~~
~~oasis · escape~~
~~unforgettable~~
~~best~~

No superlatives such as leading or number one without independent evidence.

Four moments, one measured voice.

HEADLINE

Welcome. Your room is ready.

CONFIRMED

Booking confirmed.

Reference: [booking ID]

ERROR

Availability has changed.

Review your room selection.

SERVICE RECOVERY

We're sorry the room wasn't ready.

We have noted it and [action].

Working examples. [action] is supplied by the property; no compensation is stated.

Procurement language states; it does not persuade.

ENQUIRY

Tell us about your property or project.

We'll reply to [email address].

QUOTATION

Request a quotation.

Reference: [ID]. Price: [PENDING].

EMAIL

Your sampling request is received.

We will confirm the details here.

PACKAGING

Shampoo

[PENDING] mL · Artwork version [PENDING]

No price, delivery time, minimum order, origin or sustainability statement appears until the owner supplies and verifies it.

PRIMARY · FIXED

HOSPITALITY, IN PERFECT PROPORTION

SECONDARY · USE SELECTIVELY

Every arrival, precisely composed.

Primary. Capitals, Jost, tracking .18em, one line. The signature of the brand.

Secondary. Sentence case, Jost 400. At most once in a composition, and never beside the primary at equal weight.

TREATMENT

Set it once, set it right.

Where. Covers, closing pages, section statements, secondary zones of packaging, campaign sign-off.

How. Clear of the logo by at least two u. It is not permanently locked to the logo.

Language. English only until an Arabic line is approved: PENDING LOCALIZATION APPROVAL.

CORRECT

HOSPITALITY, IN PERFECT PROPORTION

WRONG · LOWERCASED

~~Hospitality, in perfect proportion~~

WRONG · SHORTENED

~~IN PERFECT PROPORTION~~

WRONG · RETIRED TRACKING

~~HOSPITALITY, IN~~

03

IDENTITY

Logo, colour, type, Arabic, composition and the graphic language.

PRIMARY HORIZONTAL SIGNATURE

KIT · ACCEPTANCE PENDING

MONOCHROME

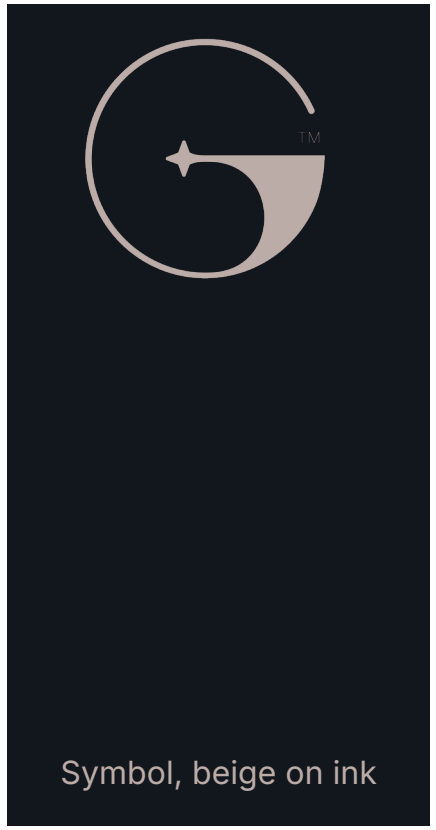

KIT · ACCEPTANCE PENDING

REVERSED · INK OR BLACK ONLY

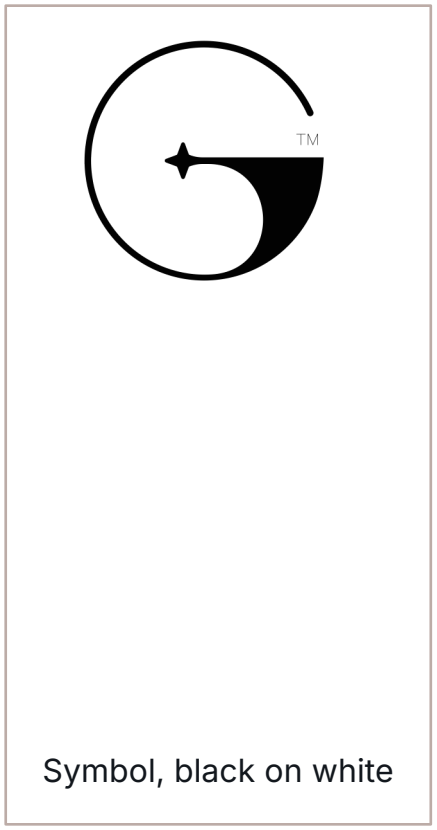

KIT · ACCEPTANCE PENDING

One mark, four artworks, vector throughout.

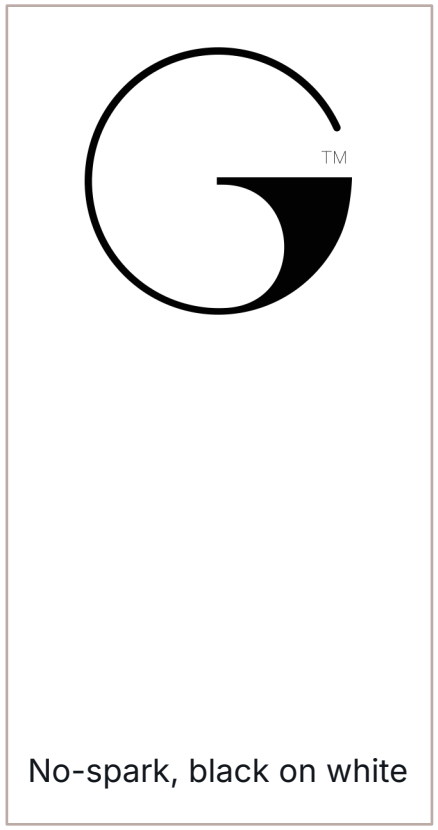

Symbol, beige on ink

Symbol, black on white

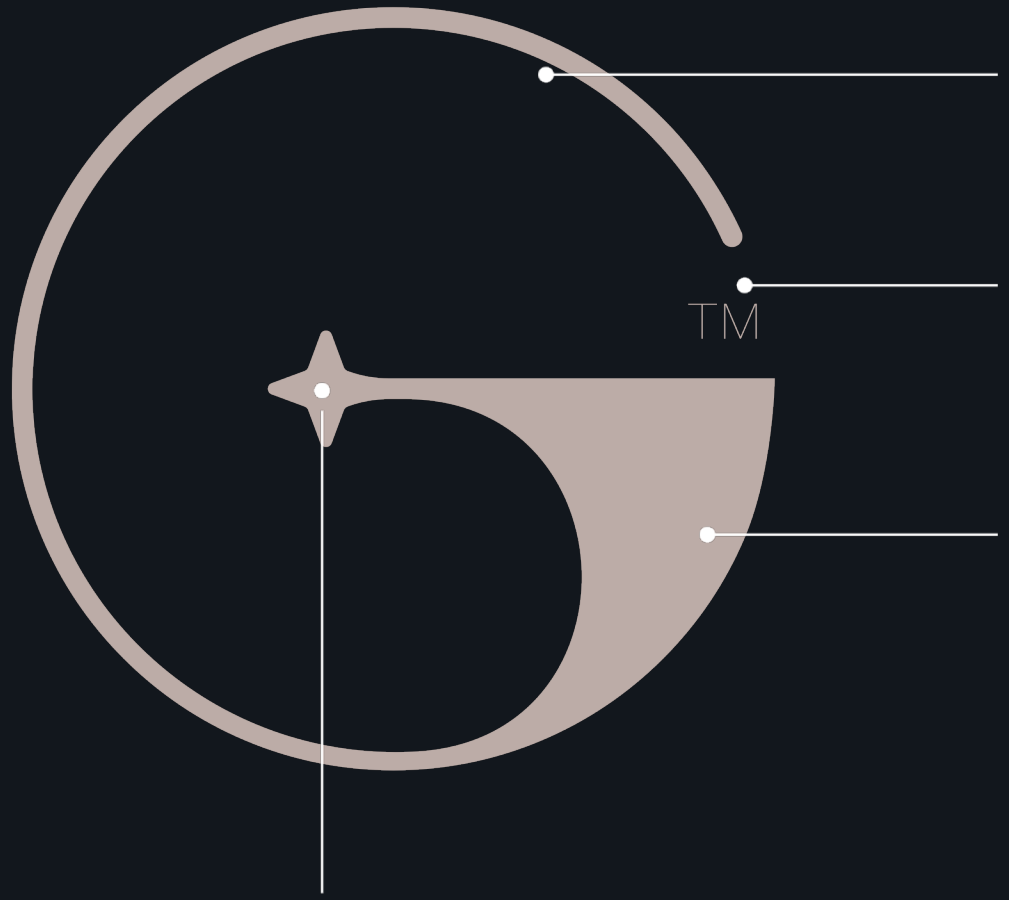

Stacked, black on white

No-spark, black on white

Vector files

SVG, PDF, EPS, PNG.
Acceptance PENDING (VAL-02)

Proportions follow the supplied vector kit. PENDING PRODUCTION MASTER (VAL-02).

G-ring

The circle that forms the G. Its radius sets the clearspace unit, u.

Opening

Where the ring opens at the upper right. It makes the letter and gives the mark air.

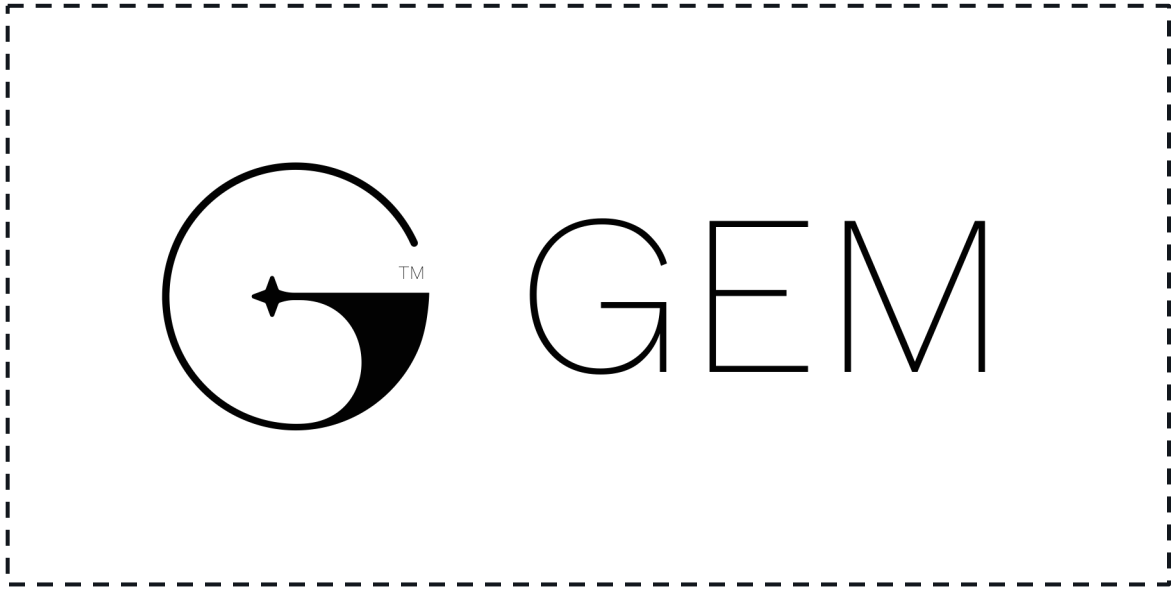

Quarter mass

The solid quarter that anchors the lower right and carries the weight of the mark.

Spark

The four-point spark at the end of the quarter's edge: the secondary signature.

CLEARSPACE AND SIZE

The dashed boundary is 1u on every side. u equals the G-ring radius, about half the height of the symbol.

1u minimum.
2u preferred.

Give the logo two u wherever the layout allows.

MINIMUM DIGITAL SIZE · ACTUAL PIXELS

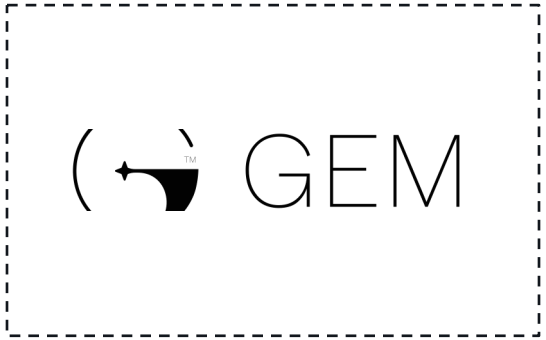

120 px lockup

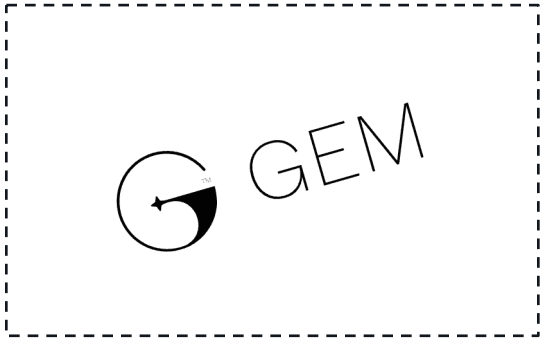

32 px symbol

Below 32 px use the no-spark symbol (supplied kit). PENDING (VAL-02).

LOGO MISUSE · NEVER

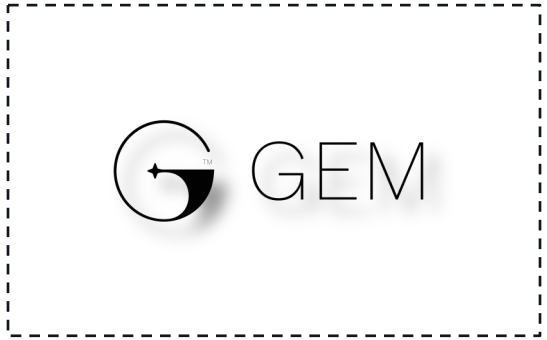

STRETCH

ROTATE

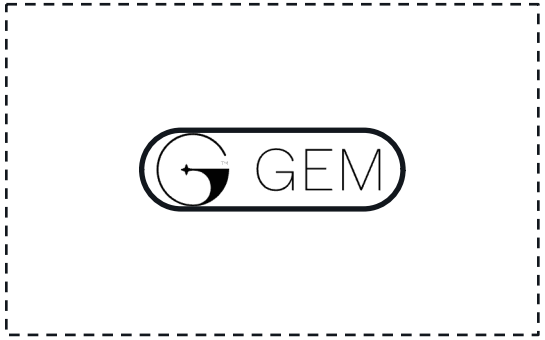

RECOLOUR

SHADOW

GRADIENT BACKGROUND

OUTLINE, CONTAINER

CROP

WORDMARK SET IN TYPE

Also never: beige on white (2.2:1), the logo on busy photography, an added or moved spark, a changed lockup.

CO-BRANDING

Partners stand beside GEM, not inside it.

DEFAULT EQUAL-PARTNER ARRANGEMENT

Balance optical prominence, not mechanical size. Keep each brand's required clearspace. Use about 2u separation as the GEM default where compatible; a hairline may be added when appropriate.

Never merge, recolour, contain or redraw either identity. Partner-specific, contractual or sponsorship rules take precedence once formally approved.

The approved commercial or property relationship determines precedence. GEM remains visually independent and uses its own clearspace and artwork.

EQUAL PARTNER · CONCEPT

SUPPLIER RELATIONSHIP · ILLUSTRATIVE, PRECEDENCE PER AGREEMENT

CONCEPT / NOT PRODUCTION ARTWORK. No real partner is approved.

INK

#12171D · Primary dark brand field and default text colour.

BEIGE

#BCACA7 · Signature warm-neutral counterpart to Ink: selected surfaces, controlled decorative use, approved contrast pairings.

BLACK

#020202 · Monochrome and one-colour production, approved functional states. Not default text.

WHITE

#FFFFFF · Primary light canvas and inverse text colour

Ink and Beige answer each other.

Beige on Ink

8.2 : 1. The signature pairing. Dark applications.

Ink on White

18.0 : 1. Light applications and long reading.

White on Black

Monochrome print, one-colour production.

Beige on White

NEVER. 2.2 : 1 fails. Not for essential text, boundaries or the logo (K05). Decorative only (K07).

Also never: gold, gradients, a fifth colour, or Beige as a text colour on a light field. Ratios are WCAG 2.2 AA; implementation tokens sit in Part B.

Aa

GEOMETRY IS THE LANGUAGE

Hospitality, in perfect proportion

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789

Display and headings: 400. Controlled labels and emphasis: 500 WEIGHT PENDING ACCEPTED FONT FILE (use 400). Two weights per composition at most. Display capitals carry .08 to .12em tracking (Part B tokens, CONDITIONAL · VAL-19).

TYPOGRAPHY · INTER · BODY AND INTERFACE

Aa

HEADLINE · JOST

A quiet arrival

EMPHASIS · INTER 400 · 500 PENDING

Every detail, in its place

BODY · INTER 400

Body text is set with zero tracking and generous leading, in measures that stay easy to read.

LABEL SMALL · INTER 400 · CAPITALS

CORE COLLECTION · 30 ML

Inter carries every sentence that must be read, from a booking form to a specification sheet. It stays plain so Jost can stay distinct.

Space between letters is calibrated, not generous.

TAGLINE · .18EM	HOSPITALITY, IN PERFECT PROPORTION
EYEBROW · .16EM	SECTION LABEL
DISPLAY CAPITALS · .08–.12EM	PRECISION
HEADINGS · 0–.02EM	Restraint is the luxury
BODY · 0	Body copy is never tracked. Keep lines to 45 to 75 characters.

Never track Arabic. The retired 0.3 to 0.8em rule is not used. Values are CONDITIONAL until optical QA in the approved templates (VAL-19). Full token values: Part B.

ARABIC · DIRECTION · PENDING VALIDATION

Arabic is composed, not translated onto a Latin layout.

أهلاً بكم

Working string for layout only. Not approved copy.

Flow right to left. Alignment, order and reading path all reverse.

Never mirror the logo. The GEM mark keeps its orientation in every language.

No Latin tracking. Arabic letters are never letterspaced.

Noto Sans Arabic is the interim family. It stays PENDING VALIDATION until native Arabic, RTL and localization QA is complete. PENDING LOCALIZATION APPROVAL.

English leads on the left. Arabic follows, aligned right.

Arabic-first for Saudi and GCC. Arabic leads, anchored right.

Both languages share one grid, one baseline rhythm and equal care. Neither is a footnote to the other. For Saudi/GCC bilingual wayfinding Arabic leads by default (S07, slide 65). Working strings only; not approved copy.

Technical codes stay Latin, even inside Arabic.

GUEST-FACING NUMBER

غرفة 412

Arabic-Indic digits may be used where approved for the locale or property. Latin shown here until policy is signed off.

TECHNICAL IDENTIFIER

رقم الحجز GEM-0000

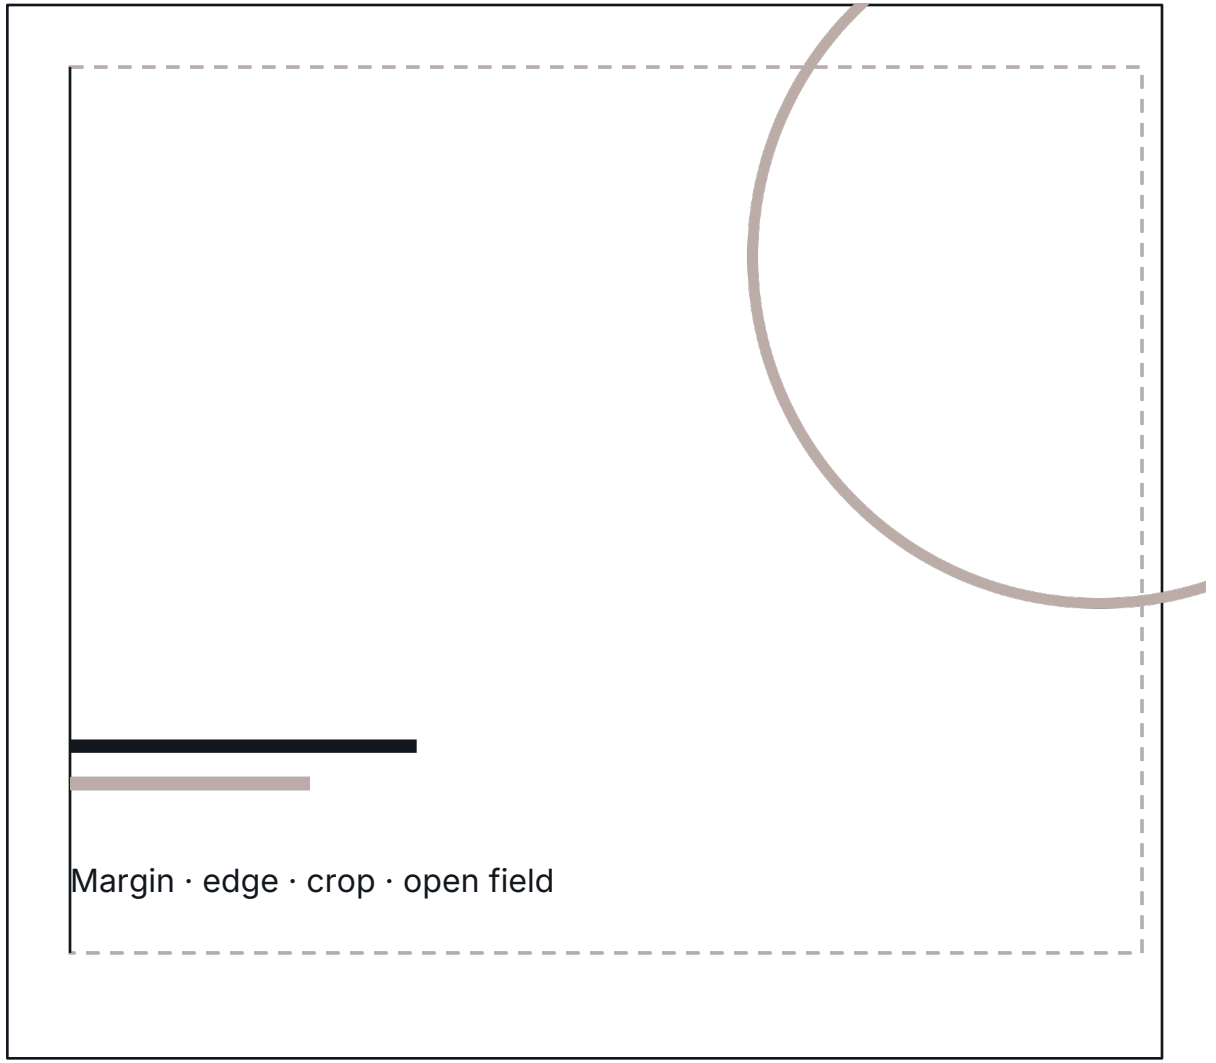

Booking IDs, SKUs, URLs, phone numbers, batch and system codes are always Latin digits, left to right. GEM-0000 is a placeholder.

THE RULE

Do not mix numeral systems arbitrarily within one content role. One page may carry Arabic-Indic digits in guest-facing Arabic and Latin digits in technical identifiers, because the roles differ.

PENDING VALIDATION: Arabic locale policy is not yet signed off. Strings are working placeholders, PENDING LOCALIZATION APPROVAL.

Balance, held off-centre.

One strong element, one generous field. Align to a few clear edges. Let the empty side do as much work as the full one.

OVERSIZED GEOMETRY, CROPPED WITH INTENT

Let a form leave the frame. A crop creates tension; the text keeps still. A form never intersects a headline or running text.

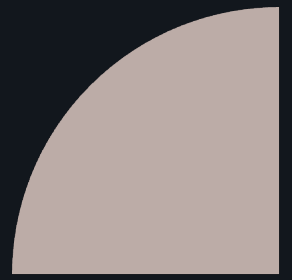

RING

Completeness. The frame of the G.

ARC

The opening. Welcome, passage.

QUARTER

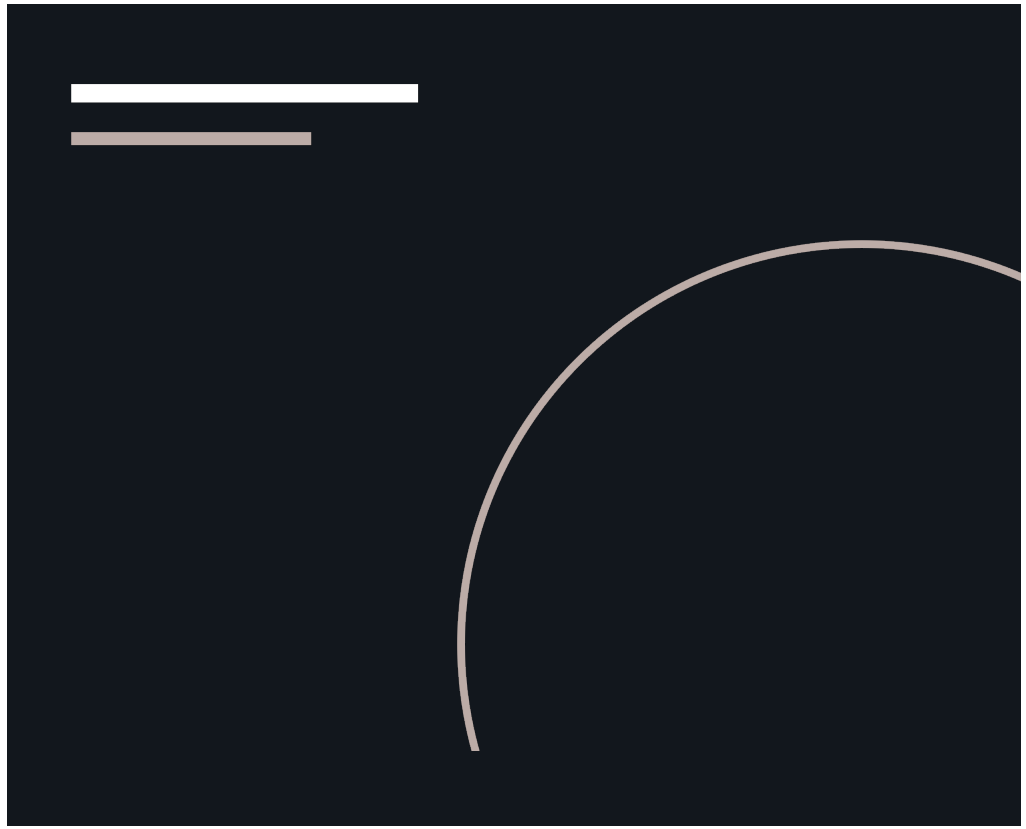

Mass. Weight and anchor.

SPARK

The single detail that is noticed.

Forms are large, quiet and clear of the words.

Scale. Large enough to be architecture, never small enough to be an icon.

Crop. Let the frame cut the form. Never crop through text.

Colour. Beige on Ink, Ink or Black on White. One colour per form.

Placement. Keep off the logo's clearspace and never behind or through text. Never repeat a form as a pattern.

ONE PER COMPOSITION

The single detail that is noticed. Use it as punctuation: a key moment, a confirmation, a point of arrival.

Approved: a cover, an opener, a confirmation state, one packaging detail.

Never: a pattern, a bullet, a repeat, a recolour, a second spark.

FUNCTIONAL GLYPH LANGUAGE

Functional, not decorative.

Glyphs help people find, choose and understand. They are geometric, reduced and single-colour: about a 2 px optical stroke on a defined optical box, drawn from the brand's circles and arcs (N15).

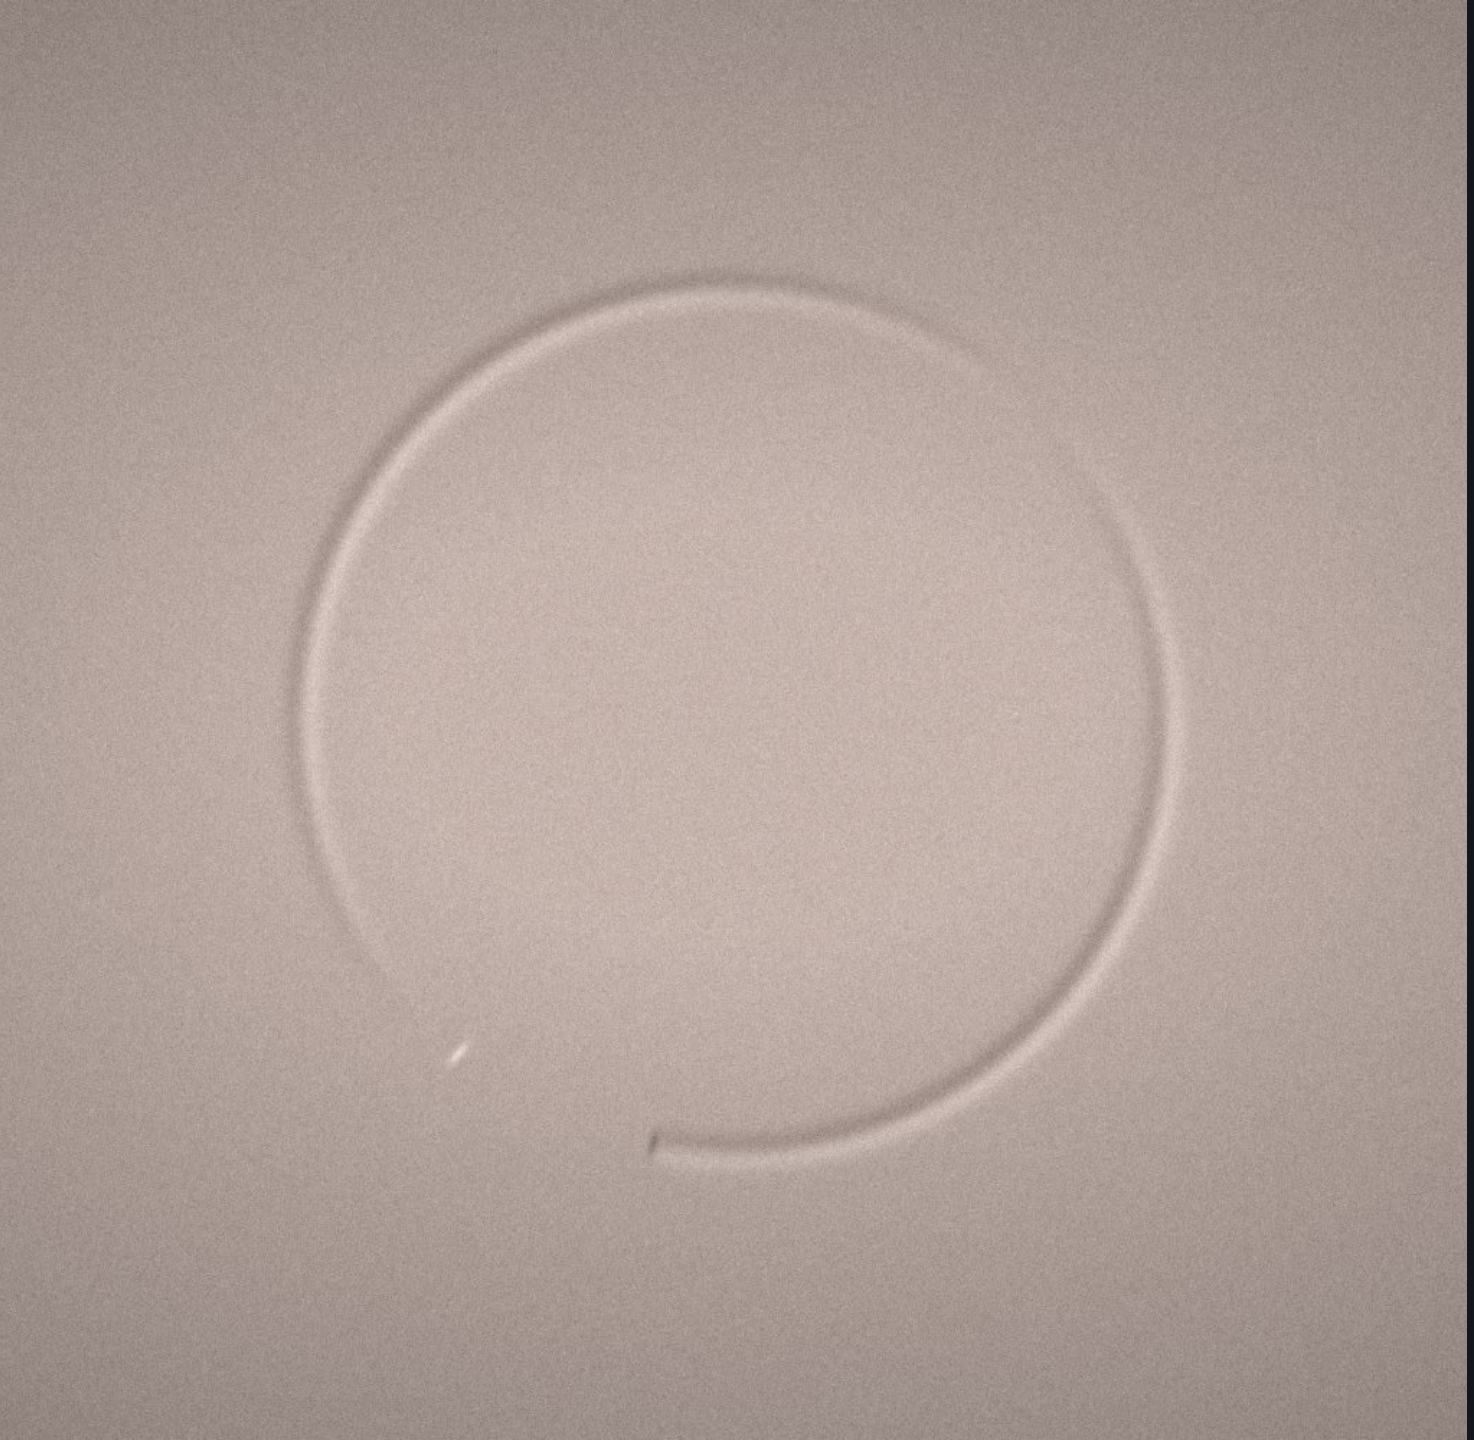

The full set and its technical rules live in Part B. Never use a glyph as ornament.

04

IMAGE & MOTION

Light, material and the single gesture that moves.

PHOTOGRAPHY · DIRECTION

LIGHT, THEN SUBJECT

Editorial and architectural

Single-source light

Warm-neutral, controlled contrast

Negative space around the subject

REFERENCE · CONCEPT / NOT PRODUCTION PHOTOGRAPHY

ARCHITECTURE

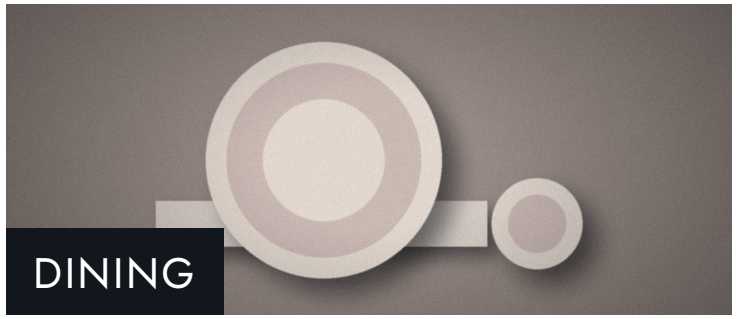

Line, volume, shadow

GUEST RITUAL

Hands, objects, gesture

AMENITIES

Objects, composed

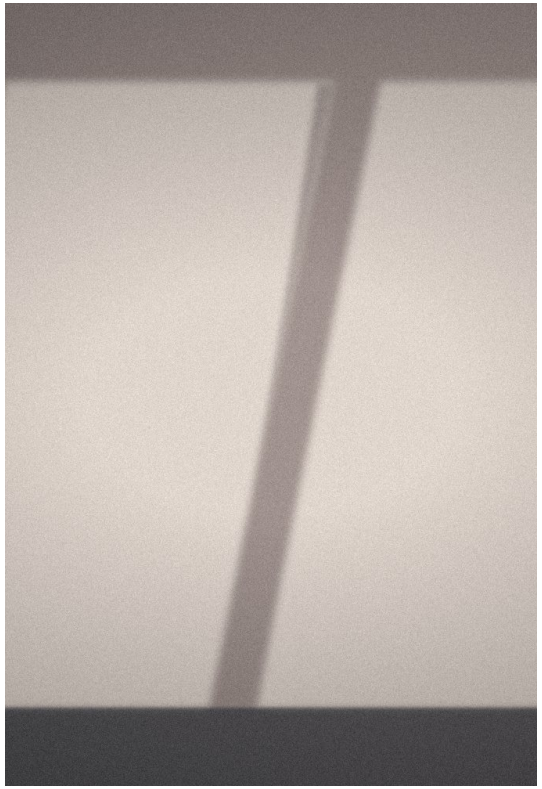

SERVICE

Care, unannounced

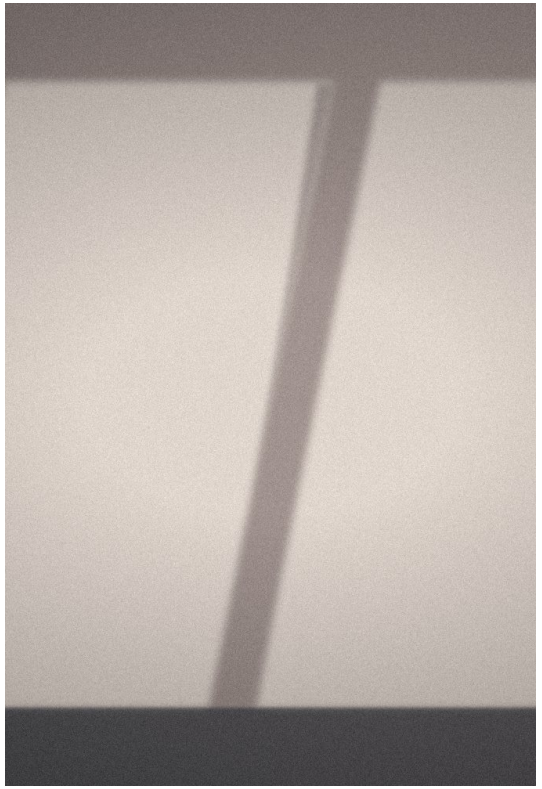

HUMAN PRESENCE

Candid, partial, calm

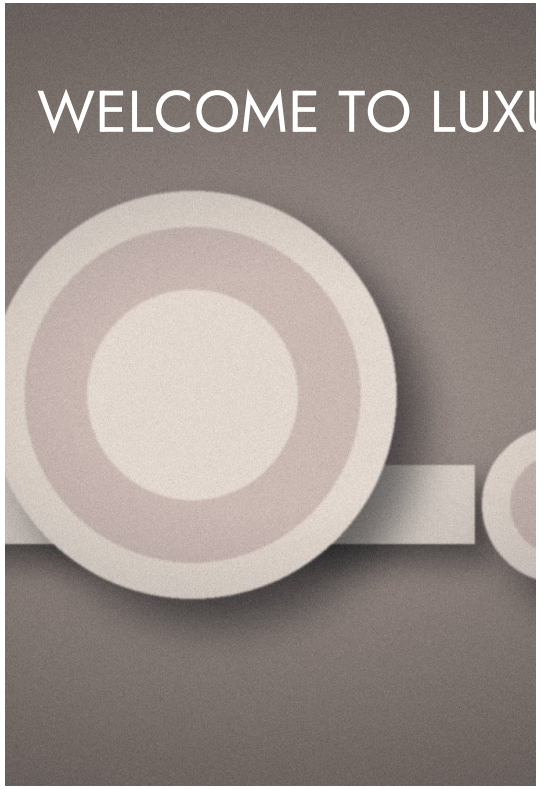

REFERENCE · CONCEPT / NOT PRODUCTION PHOTOGRAPHY · PLAIN TILES AWAIT COMMISSIONED IMAGES. REQUIRED CATEGORIES (O11–O16): ARCHITECTURE, MATERIALS, THRESHOLDS, AMENITIES; DINING AND SERVICE WHERE RELEVANT. GUEST RITUAL, ROOM DETAILS AND HUMAN PRESENCE ARE SUPPLEMENTARY SUBJECTS.

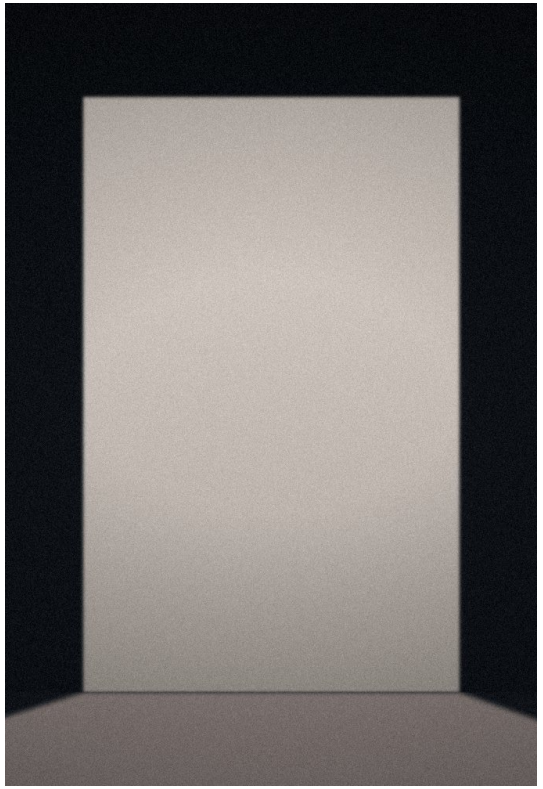

DO · One source of light. Quiet tones. Room to breathe.

DON'T · Oversaturate or add artificial glow.

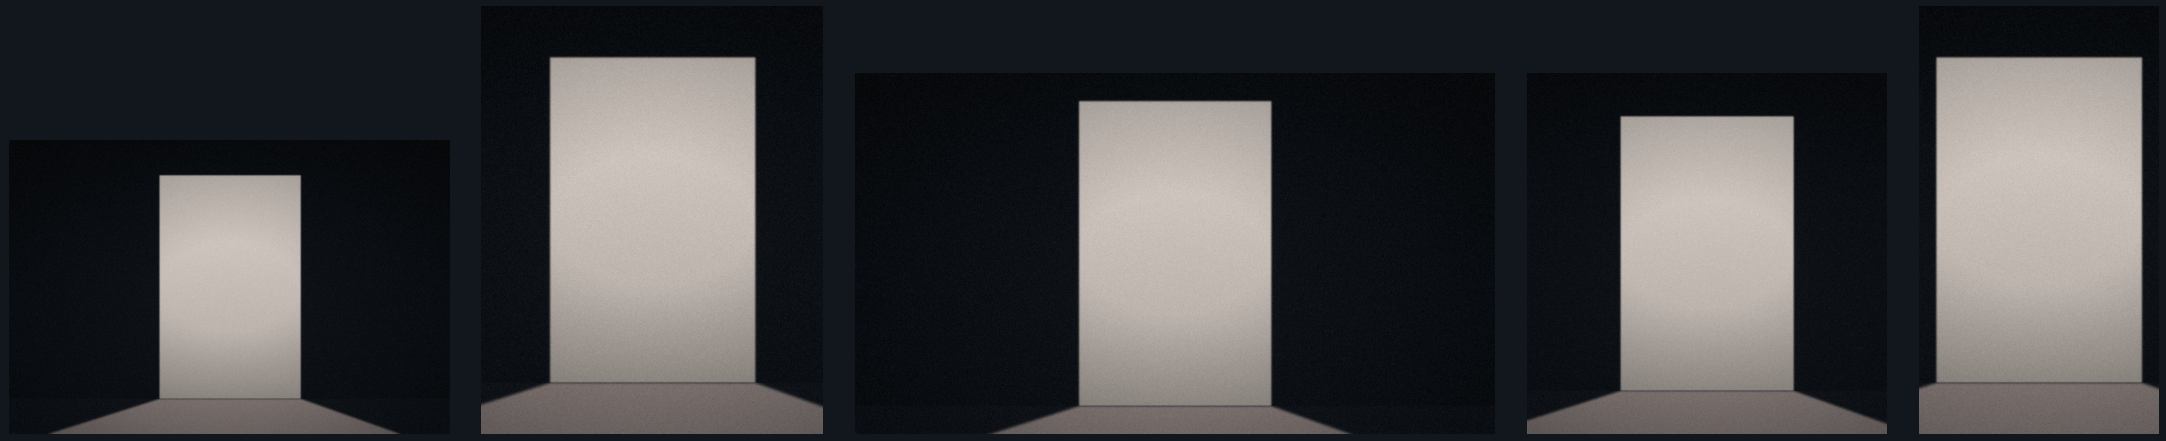

DON'T · Place text over the subject or a busy field.

DON'T · Apply trendy filters or off-palette tints.

Also avoid generic hotel stock, posed smiling groups and generic luxury clichés.

FIVE RATIOS. ONE SUBJECT, OFF-CENTRE.

3:2 4:5 16:9 1:1 9:16

Place the subject on a third and leave the opposite field empty. Keep text in the quiet area, away from the subject.

THE RING DRAWS. THE SPARK FLASHES. THE QUARTER FILLS.

01 · DRAW

The ring traces itself.

02 · FLASH

The spark appears once.

03 · FILL

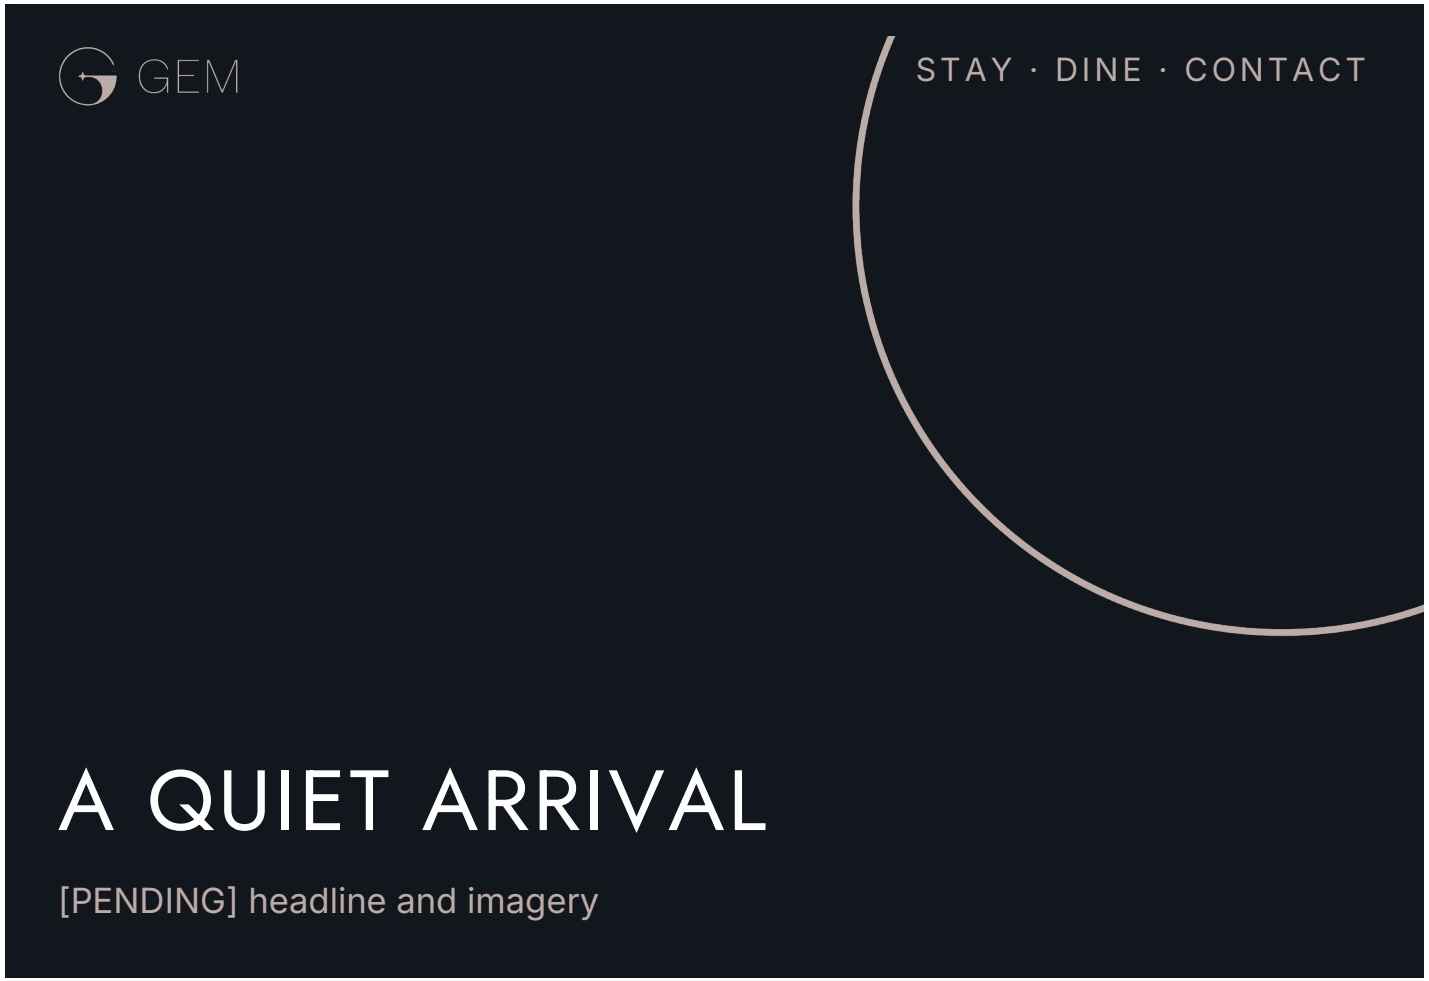

The quarter settles the mark.

About 1.5 seconds, ease-out, once. Reduced motion: show the final frame at rest, no animation. Reveal timings CONDITIONAL; motion masters PENDING VALIDATION (VAL-14). Motion tokens: Part B.

05

EXPERIENCE

One brand universe, from the screen to the door to the table.

AMENITIES & PACKAGING

The primary B2B stream, under one master brand.

GEM™ — Amenities & Packaging: a descriptor, not a new brand.

TIER

Core Collection

The consistent GEM range. Name [REQUIRES OWNER]. Scope [PENDING]

TIER

Property Edition

Tailored to a property. Scope [PENDING]

TIER

Bespoke Programme

Developed with a partner. Scope [PENDING]

Same logo, same palette, same type in every tier. All tiers are CONDITIONAL until commercial scope closes (AC03, VAL-01). Property Edition and Bespoke programmes are named in the register (E14); the name Core Collection is [REQUIRES OWNER].

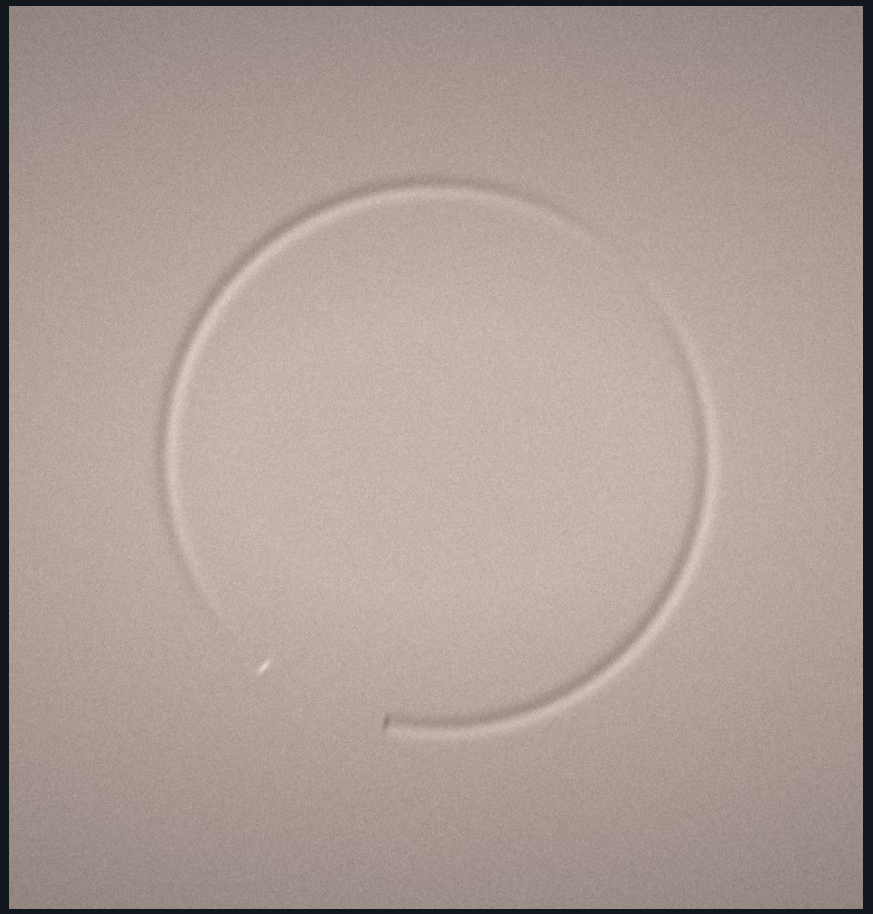

READ FROM THE TOP, DOWN.

01	GEM™
02	Collection / tier
03	Product / function
04	Quantity / size
05	Instructions / market information
06	SKU / artwork version

The brand is seen first, then the tier, then the product and its function, then quantity, information and the SKU. Six levels, as approved (T05). Never reverse the order.

[PENDING] on every pack: volume, ingredients, claims, origin, certifications, supplier, MOQ and price. None are stated.

REFERENCE · pressed ring, one surface, one gesture

Warm uncoated stock	Ink board
Beige	Deboss
Blind emboss	Soft-touch
Precision die-cut	

AVOID

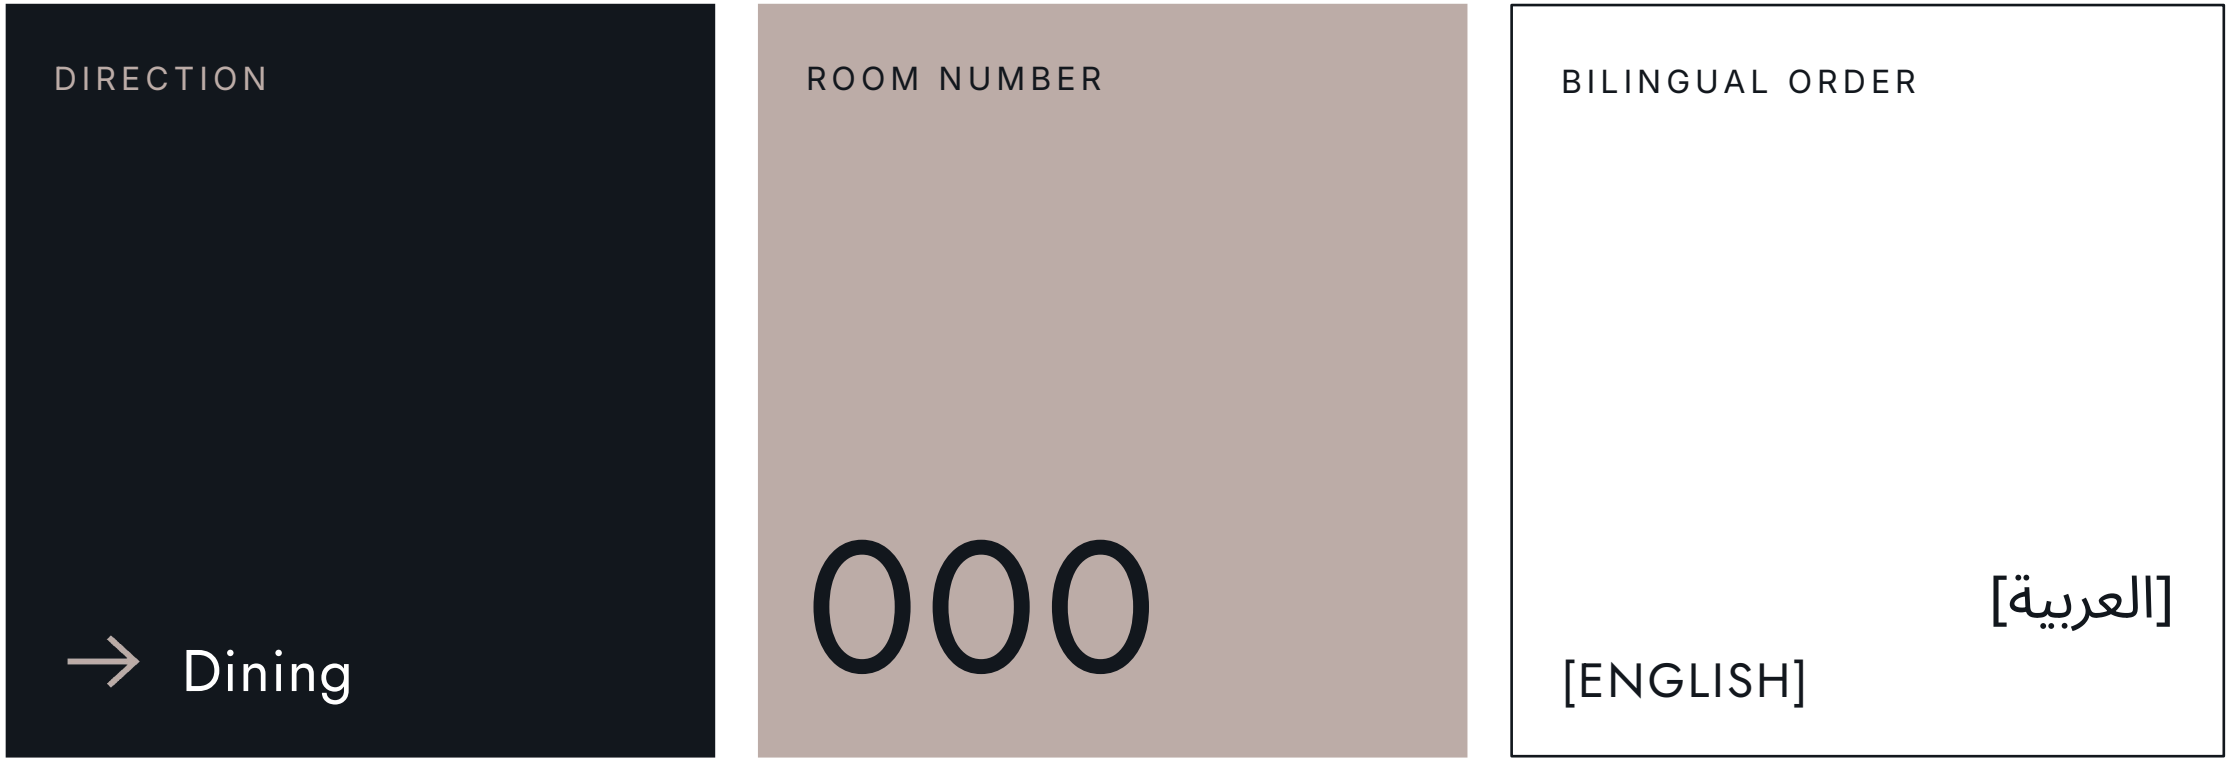

Decorative gold, holographic, chrome, heavy foil, gloss-heavy cues.

Feel before shine. Finish suppliers, stock weights and tolerances are [REQUIRES OWNER] and belong in Part C.

07

ENVIRONMENT

Wayfinding, signage and the physical expression of GEM.

One direction, one message per sign. Read left to right in English, right to left in Arabic. For Saudi/GCC bilingual wayfinding Arabic leads by default: Arabic first and right, English secondary and left, with equivalent information and legibility (S07). Geometry is shared with the brand.

PROJECT-SPECIFIC / REQUIRES SITE VALIDATION · ARABIC: PENDING LOCALIZATION APPROVAL · EXTERNAL PROPERTY SIGNAGE: DEFERRED (S02)

SOCIAL AND CAMPAIGN · CONCEPT / NOT PRODUCTION ARTWORK

Quiet in the feed is a strength.

1:1 4:5 9:16 16:9

One form, one line, one spark at most. No loud colour, no stickers, no gradients. Social starter set: OPEN DELIVERABLE (W07), not yet produced.

08

STEWARDSHIP

Access, governance, status and what remains open.

Luxury must remain usable.

Contrast
Ink on White 18.0. Beige on Ink 8.2. Never Beige on White.

Legibility
Readable sizes, clear hierarchy, no text over busy images.

Focus and motion
Visible focus. Reduced motion is honoured.

Meaning
Never by colour alone. Add a word, a glyph or a shape.

Arabic
Correct shaping and direction. Native QA pending.

Signage
Tactile and contrast rules validated per site.

Imagery
Inclusive, candid, respectful people. Alt text always.

Standard
WCAG 2.2 AA. Detail in Part B.

TWELVE ROLES KEEP GEM EXACT.

Brand Owner [REQUIRES OWNER]	Design Custodian [REQUIRES OWNER]	Commercial Lead [REQUIRES OWNER]	Product / Amenities Lead [REQUIRES OWNER]
Procurement / Supplier QA [REQUIRES OWNER]	Digital Design Lead [REQUIRES OWNER]	Engineering Lead [REQUIRES OWNER]	Arabic / Localization Lead [REQUIRES OWNER]
Accessibility QA [REQUIRES OWNER]	Legal / IP Counsel [REQUIRES OWNER]	Presentation / Document QA [REQUIRES OWNER]	Asset Librarian / Governance PM [REQUIRES OWNER]

Roles follow the V3 Approval Register (Owners & Governance). Named holders are not yet assigned (AC19). Release authorization (AC20) was issued by the Brand Owner, with formal deferrals. ™ in running text and on packs: [REQUIRES OWNER · Legal / IP Counsel].

APPROVAL STATUS · FOUR LABELS

Every claim in V3 says how settled it is.

APPROVED

Final. Use as written. Not reopened.

CONDITIONAL

Usable once stated evidence or conditions are met.

PENDING VALIDATION

Working state. Do not present as final.

REFERENCE

Illustrative or historical. Not for production.

Labels are always written as words, never signalled by colour alone. Placeholders: [PENDING], [TO BE VERIFIED], [REQUIRES OWNER].

ASSET LIBRARY

TEN FOLDERS. ONE SOURCE.

01 Brand Masters	06 Packaging
02 Type & Color	07 Digital
03 Imagery	08 Localization
04 Motion	09 Governance
05 Applications	10 Archive

Only approved artwork lives in the library. Anything pending is labelled and kept apart.

A name should say what it is.

GEM_[STREAM]_[ASSET]_[VARIANT]_vX.Y_YYYYMMDD.ext

Example: GEM_BRAND_Horizontal_Black_v3.0_20261006.svg · convention X12 of the V3 Approval Register

No spaces. Short, predictable names. The stream field follows the asset library folder.

No "final", "new" or "latest". The date field (YYYYMMDD) is the issue date; the version number carries asset history.

Approval, checksum, owner, source and release status live in the asset manifest. Proposed, CONDITIONAL [REQUIRES OWNER]: asset ID GEM-[CATEGORY]-[NNN] and SHA-256 checksums (Part C, Appendix N).

DO

- Use space
- Use proportion
- Use approved artwork
- Use restraint
- Verify details
- Maintain hierarchy

DON'T

- Decorate
- Invent
- Over-colour
- Over-round
- Over-brand
- Copy generic luxury cues

GEM

LOGO · 1u min, 2u preferred

PALETTE · Ink, Beige, Black, White
